## CONTENTS

### Section 1 Theoretical Physics. Nuclear and Elementary Particle Physics. Astrophysics

<i>Dyachkov V.V., Zaripova Yu.A., Yushkov A.V., Shakirov A.L., Bigeldiyeva M.T., Dyussebayeva K.S., Abramov K.E.</i> Study of distribution of beta-pollution in the city of Almaty.....	4
<i>Bekbaev A.K., Aznabayev D.T., Korobov V.I., and Kemelzhanova S.E.</i> Determination of the non-relativistic energy spectrum of molecular hydrogen ions $H_2^+$ and $HD^+$ .....	11

### Section 2 Plasma Physics

<i>Arkhipov Yu.V., Askaruly A., Ashikbayeva A.B., Davletov A.E., Dubovtsev D.Y., Santybayev Kh., Tkachenko I.M.</i> Analysis of methods for calculating the static characteristics of dense Coulomb systems .....	20
<i>Utegenov A.U., Tazhen A.B., Rayymkhanov Zh., Kambarov A.A.</i> Heat erosion of the graphite target under effects of intensive pulse plasma flow.....	33

### Section 3 Condensed Matter Physics and Materials Science Problems. Nanoscience

<i>Kenzhina I., Kozlovskiy A., Kadyrzhanov K.K.</i> Study of structural properties of copper nanotubes modified with ionizing radiation.....	42
<i>Zhantuarov S.R., Zholdybaev K.S., Aldiyarov A.U., Muchamedshina D.M., Tokmoldin N.S., Carnie M.J.</i> Modeling of perovskite solar cells .....	49
<i>Slamia M., Zhumadilov R., Dosbolayev M.K., Yertayev O.A., Ramazanov T.S.</i> Growth of copper nanoparticles by modified magnetron sputtering .....	57
<i>Sarsembek S.S., Mussabek G.K., Dikhanbaev K.K., Ermukhamed D., Baiganatova Sh.B., Amirkhanova G.A.</i> The production of porous gallium phosphide films and the investigation of physical properties .....	64
<i>Zhanturina N., Aimaganbetova Z., Sagimbaeva Sh.</i> About the origin of the emission bands in the wavelength range 320-600 nm in KBr crystal at low temperatures .....	77
<i>Nassurlla Maulen, Burtebayev N., Mukhashev K.M., Nassurlla Marzhan and Khojayev R.A.</i> Temperature dependence of the energy resolution of a gallium arsenide detector .....	85
<i>Nussupov K.Kh., Beisenkhanov N.B., Bakranova D.I., Keyinbay S., Seitov B.Zh.</i> The structure of silicon carbide films synthesized by magnetron sputtering .....	93
<i>Mikhailov L.V., Yersayn R.Zh., Mikhailova S.L., Ismailova G. A., Sokolov A. S.</i> Modeling of the collating dust process by a window air cleaner.....	100
<i>Chuchvaga N.A., Kislyakova N.M., Aimaganbetov K.P., Rakymetov B.A., Tokmoldin N.S.</i> A study of the effects of wet chemical treatment on the surface of monocrystalline silicon wafers.....	108
